

ULTIMATE HEALTH PLANS MEMBERS WILL SAVE MONEY ON INSULIN AND VACCINES THROUGH THE INFLATION REDUCTION ACT!

We care about our members' health and their ability to afford medications. That is why we are pleased to share information on new legislation passed in August 2022, known as the Inflation Reduction Act (IRA). All Medicare Advantage Plans with drug coverage are required to enhance benefits around insulin and vaccines, effective January 1, 2023.

➤ Insulin cost-sharing is \$35 or less each month

As of January 1, 2023, members enrolled in a Medicare prescription drug plan will not pay more than \$35 for a 1-month supply of each insulin they take that is covered by their Medicare prescription drug plan and dispensed at a retail pharmacy or through a mail-order pharmacy. In addition, Part D deductibles won't apply to the covered insulin product.

➤ Vaccine cost-sharing, \$0 for shingles and other vaccines

As of January 1, 2023, adult vaccines recommended by the Advisory Committee on Immunization Practices (ACIP), including the shingles vaccine, will be available to members through their Medicare prescription drug plan at no cost.
