

## ULTIMATE HEALTH PLANS MEMBERS WILL SAVE MONEY ON INSULIN AND VACCINES THROUGH THE INFLATION REDUCTION ACT!

We care about our members' health and their ability to afford medications. That is why we are pleased to share information on new legislation passed in August 2022, known as the Inflation Reduction Act (IRA). All Medicare Advantage Plans with drug coverage are required to enhance benefits around insulin and vaccines, effective January 1, 2023.

### ➤ Insulin cost-sharing is \$35 or less each month

Effective January 1, 2026, members enrolled in a Medicare prescription drug plan will pay no more than 25% of the cost, capped at a maximum of \$35 for a one-month supply of each insulin product covered under our plan, regardless of the cost-sharing tier. In addition, Part D deductibles do not apply.

### ➤ Vaccine cost-sharing, \$0 for shingles and other vaccines

As of January 1, 2023, adult vaccines recommended by the Advisory Committee on Immunization Practices (ACIP), including the shingles vaccine, will be available to members through their Medicare prescription drug plan at no cost.
